SERIES MOWERS

HANDY MOWING TIPS

✓ SHARPEN MOWER BLADES

It's important to ensure you keep your mower blade sharp to avoid tearing the plant, which leads to a brown appearance and makes the lawn more susceptible to stress and disease.

✓ MAINTAIN YOUR CUTTING DECK

To ensure the maximum efficiency of your cutting deck and the best quality of cut, make sure that the deck belts and pulleys are in good condition and the belt tension is correct.

FOR PEACE OF MIND, INSIST ON
TORO® GENUINE PARTS.

†Available at participating dealers only. Weekly repayments are indicative only. See back page for Terms & Conditions.

†Contact your dealer for details on all warranties.

HORIZON™
TECHNOLOGY

HORIZON™
TECHNOLOGY

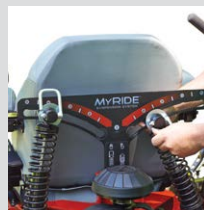

An onboard intelligence platform that improves fuel efficiency, productivity, protects your engine and extends clutch life.

Lets you choose the performance mode to match the mowing conditions:

Max Mode maximum power for the most demanding conditions

Economy Mode excellent performance in normal conditions with reduced fuel consumption, emissions, noise & machine wear

Low Mode helps reduce deck packing and discharge clumping when cutting in wet conditions

MyRIDE® Suspension System allows personalised ride settings. The operator can easily and quickly adjust their ride settings to account for their personal ride preferences, resulting in maximum comfort.
